COURSE END SURVEY

Class: SE (Comp)

Course Name: Object Oriented Programming (210245)

Name of the Faculty: Prof. S.N.Autade

We would be grateful if you could fill out and submit the following Course end survey. We assure you that your feedback will be treated as confidentially for our continuous improvement.

Please indicate the level of attainments for the following course outcomes as result of completing this course.

Course Outcomes	Indicators		
	Substantial	Moderate	Slight
Analyze the strengths of object oriented programming	3		
Design and apply OOP principles for effective programming			
Develop programming application using object oriented programming language C++	3		
Percept the utility and applicability of OOP			
To implement File handling using object-oriented programming.	3		
Able to analyse, design and construct sophisticated software applications to industry standards			

*Substantial: 3;

Moderate: 2;

Slight: 1

Date: 8-10-2017

COURSE END SURVEY

Class: BE (COMP) **Course Name:** Smart System Design and Applications (410443)

Name of the Faculty: Prof. A. C. Jadhav

We would be grateful if you could fill out and submit the following Course end survey. We assure you that your feedback will be treated as confidentially for our continuous improvement.

Please indicate the level of attainments for the following course outcomes as result of completing this course.

Course Outcomes	Indicators		
	Substantial	Moderate	Slight
To write and survey solution for multidisciplinary case-study using mathematical modeling give presentations using soft skills methodologies.		2	
To write and survey embedded systems applications using machine learning.		2	
To solve problems for multi-core or distributed, concurrent and embedded environments.	3

COURSE END SURVEY

Class: TE (Comp) Course Name: Software Modeling & Design (310253)

Name of the Faculty: Prof. A.C.Jadhav

We would be grateful if you could fill out and submit the following Course end survey. We assure you that your feedback will be treated as confidentially for our continuous improvement.

Please indicate the level of attainments for the following course outcomes as result of completing this course.

Course Outcomes	Indicators		
	Substantial	Moderate	Slight
Analyze the problem statement (SRS) and choose proper design technique for designing web-based/ desktop application		2	
Design and analyze an application using UML modeling as fundamental tool			
Apply design patterns to understand reusability in OO design		2	
Decide and apply appropriate modern tool for designing and modeling			
Decide and apply appropriate modern testing tool for testing web-based/desktop application	3

COURSE END SURVEY

Class: TE (Comp) **Course Name:** Computer Networks (310245)

Name of the Faculty: Prof. D.S.Gogawale

We would be grateful if you could fill out and submit the following Course end survey. We assure you that your feedback will be treated as confidentially for our continuous improvement.

Please indicate the level of attainments for the following course outcomes as result of completing this course.

Course Outcomes	Indicators		
	Substantial	Moderate	Slight
Analyze the requirements for a given organizational structure to select the most appropriate networking architecture, topologies, transmission mediums, and technologies.		2	
Demonstrate design issues, flow control and error control			
Analyze data flow between TCP/IP model using Application, Transport and Network Layer Protocols	3		
Illustrate applications of Computer Network capabilities, selection and usage for various sectors of user community.			
Illustrate Client-Server architectures and prototypes by the means of correct standards and technology.		2	
Demonstrate different routing and switching algorithms			1

COURSE END SURVEY

Class: TE (Comp) Course Name: Web Technology (310254)

Name of the Faculty: Prof.P.V.Kharat

We would be grateful if you could fill out and submit the following Course end survey. We assure you that your feedback will be treated as confidentially for our continuous improvement.

Please indicate the level of attainments for the following course outcomes as result of completing this course.

Course Outcomes	Indicators		
	Substantial	Moderate	Slight
Student will be able to analyze given assignment to select sustainable web development and design methodology	3		
Student will be able to develop web based application using suitable client side web technologies			
Student will be able to develop web based application using suitable server side web technologies.	3		
Student will be able to develop solution to complex problems using appropriate method, technologies, web services and content management			
Student will be able to develop client and server side architectures, frameworks.	3		
Student will be able to understand web services and front end advanced technologies.			1
